## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims **9-10, 12-15, 19-28, 31-33 and 35-37** are allowed.
2. The following is an examiner's statement of reasons for allowance: the prior art does not disclose or make obvious the assembly of claim 1, including wherein at least the optoelectronic device is provided with a spacing layer between the optical axis of the optoelectronic device and the bonding surface, additional to the optoelectronic device, which spacing layer provides the bonding surface for said flip-chip mounting of the optoelectronic device, enables electrical contact to be made to the optoelectronic device, and determines the distance from the bonding surface to the axis of the device, when mounted to the shared substrate, to achieve said optical coupling in use, said spacing layer comprising a glass material having both organic and inorganic components.
3. The prior art does not disclose or make obvious the device of claim 12, wherein said first and second optical components have bonding surfaces, the distance from the bonding surface to the optical axis for the first component being different from the distance from the bonding surface to the optical axis for the second component, the shared substrate providing a non-planar surface on which both said first and second components are flip chip mounted to achieve said optical coupling in use.
4. The prior art also does not disclose or make obvious the assembly of claim 35, wherein an optical cladding layer of the first component and a support surface for the

Art Unit: 2814

second component are each provided by areas of the same layer fabricated on the shared substrate

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
